REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: As stated on page 19 of Applicant's amendment filed September 8, 2005, independent claims 38 and 53 have been amended to define more clearly the invention and now include limitations previously recited in independent claims 1 and 18, respectively; i.e., a control section that controls the respective angles α of a back section and β a knee section *along a preset pattern* defined in a coordinate system based on angles α and β , and a storage section *that stores the preset pattern*, wherein the preset pattern is further segmented into a plurality of areas of the angles α and β such that the storage section also stores operational modes of the back and knee sections for *each* of the plurality of areas. Since claims 1-37 were allowed in the prior Office action filed June 21, 2005 and an updated search of the prior art did not yield any other references pertinent to Applicants' claims, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..
